

Our Fleet

D.M.E. Crane Hire offers an impressive capability between 3 and 80 tonne cranes (and greater, if required). These cranes are specifically designed for versatility and manoeuvrability, and they include:

- 3 tonne Mini Crawler Crane
- 4.5 tonne Telehandler
- 7 tonne City Crane AWD
- 14 tonne Franna Crane AWD
- 18 tonne Franna Crane AWD
- 30 tonne Truck Crane Tadano
- 50 tonne Truck Crane Kato
- 50 tonne All Terrain Crane Demag
- 60 tonne All Terrain Crane Demag
- 80 tonne All Terrain Crane Demag

Certification & Fleet Maintenance

You only get one chance to do it properly and, potentially, there's a lot to go wrong on an industrial site. Power cabling, underground lines, suspended slabs, all present possible pitfalls.

Fortunately, industrial lifting technology has benefited substantially from advances in computerised operation.

D.M.E. operations are backed by daily safety checks, logged by operators; and by certified testing through 'Crane-Safe', based on scheduled safety & maintenance. In this way, D.M.E. Crane Hire guarantees total compliance with industry standards.

In heavy industrial applications, there can never be a compromise on safety, training or professionalism.

D.M.E. uses the best people, our own people. We give them the best training and we equip and outfit them to ensure they take pride and ownership on project delivery. Our confidence in them is our clients' certainty of professional compliance and safety, right through to completion.

"D.M.E. is driven by safety, success and delivery of a quality product"

Paul Draper, General Manager

D.M.E. Crane Hire

In the competitive field of Australian engineering and construction, D.M.E. Crane Hire stands as the reliable provider of heavy lifting and construction services. It's self evident. When the project moves from the screen to the site, you need experience, reliability and compliance.

The alternatives don't really bear thinking about. When you're responsible for moving and lifting over busy roadways, construction sites or shopping precincts, it has to be done right, because the first time is the only time.

D.M.E. Crane Hire guarantees this non-negotiable industry imperative in its construction engineering and its short & long term hire services, providing lift capabilities from 3 to 80 tonnes.

A Solid Business Base

D.M.E. Crane Hire is a member of the long established D.M.E. Group of Companies. This total capitalisation offers you the certainty of dealing with a business which understands its operations inside out, and offers the business and operating track record to prove it.

This must inspire confidence.
